

ECN No: 21
Date: 17/09/2020
Affected Product(s): Excel Category 6A Screened 170-191/190-191/190-191-305m and 190-191-WT-305m
Effective Date: September 2020 onwards

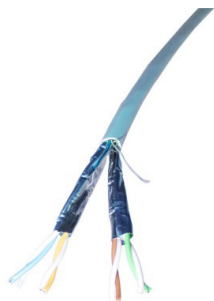

Excel Category 6A Screened Cable 190-191

As part of Excel's continual improvement program, and following customer feedback, Excel are pleased to announce the following changes have been made to our Category 6a UFTP cable, in an effort to reduce the number of part codes and to standardize on the range of products offered, we are pleased that we can now offer in line with our UUTP Category 6a cable a higher grade of Euro class for our UFTP Category 6a cable, giving you a reduced range that will cover all installation requirements from Dca to B2ca for both UUTP and UFTP bulk cable.

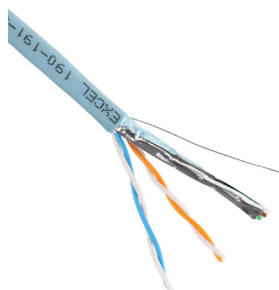

The 190-191 has been redesigned to offer the following benefits to our customers:

- Improved technical Performance
- Reduced cable diameter from the existing 190-191
- Higher Euro class from Cca to B2ca and no additional cost
- Available in Box or reels

The 190-191 design has been fully tested and EC verified by Delta and certificates are available for download on the product page of our web site www.excel-networking.com

Existing

New

The above images show the difference in construction between the old 190-191 and the improved performance design, termination and time to terminate remains the same.

As a result of this new design our Cca Grade 170-191 will be discontinued and replaced by the 190-191.
