## Excel HD Panel and Cassettes

**Date:** April 2021

**Author:** Neil Payne

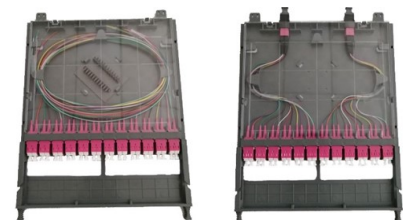

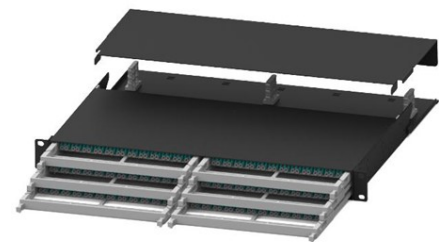

**Neil Payne**  
Excel Product Manager

Excel Networking would like announce the release of a new High Density fibre panel solution. After feedback from the market, Excel have invested in an upgrade to the HD fibre panel offering. The new HD panel will allow a wider range of options to the end user and give the ability to fit into a wider client base.

These improvements include:

- Trays to accept up to 24 fibre
- 1U, 2U and 4U panel versions
- MTP fanout options in 8, 12 or 24
- Ability to house splitters
- SC Simplex (12 fibre per tray) and LC duplex (24 fibre per tray) Adaptors
- Clear labelling fields

As a result of this new release we will be making our old HD panel and cassettes obsolete. As of April 2021, the part codes affected are:

Old Part Code	New Part Code
208-100	208-120
208-105	208-121
208-106	208-122
208-107	208-123
208-108	208-124
208-109	208-125
208-110	208-126
208-111	208-128
208-111-MOD1	208-128-MOD1

Old Part Code	New Part Code
208-111-MOD2	208-128-MOD2
208-112	208-131
208-112-MOD1	208-131-MOD1
208-112-MOD2	208-131-MOD2
208-113	208-134
208-113-MOD1	208-134-MODE1
208-113-MOD2	208-134-MODE2
208-114	208-137
208-116	208-138
